LP 1/12 HOTEL

NOISELESS AND SUSTAINABLE

The professional vacuum cleaner **LP 1/12 HOTEL** is extremely low-noise: it emits 53 decibels and is the ideal solution for **noise-sensitive environments** such as waiting rooms, offices, receptions and hotel halls. It doesn't disturb guests and visitors.

Made in Italy and provided with a **high content of recycled plastic** certified by a third party, it complies with RoHS and REACH requirements, easily separable and entirely recyclable, in full respect for the environment and eco-sustainability.

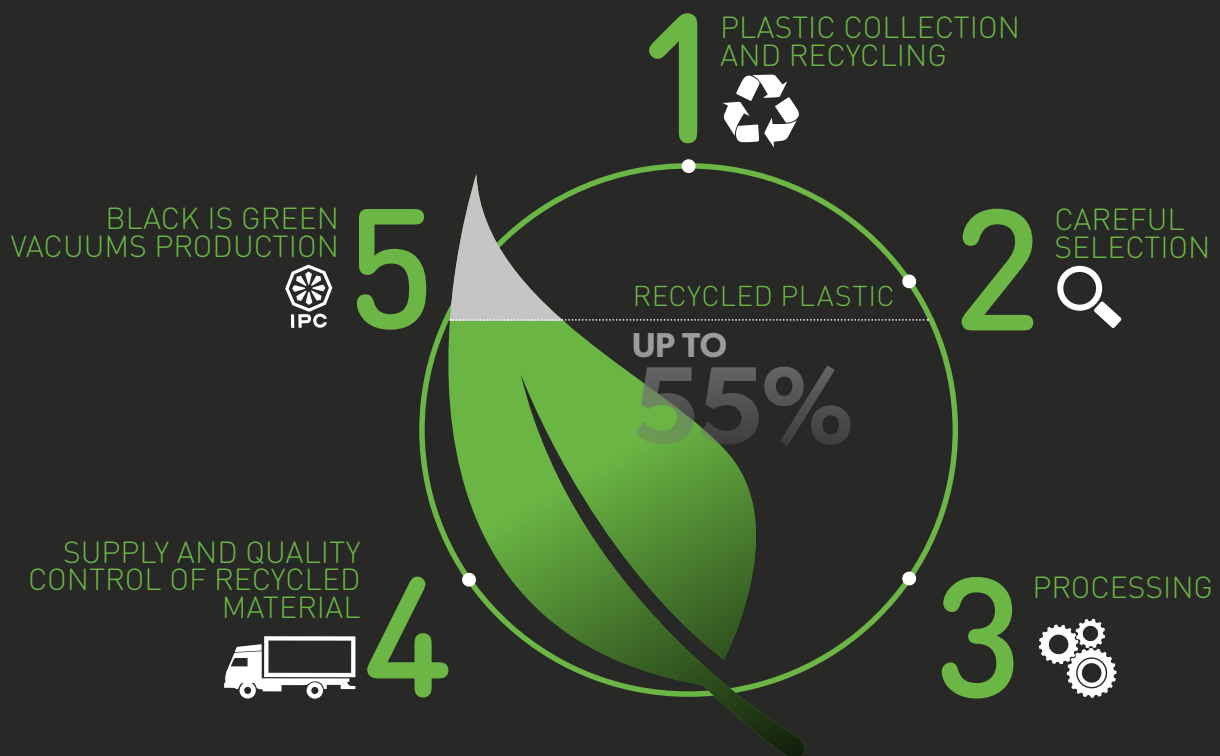

BLACK
IS
GREEN™

LP 1/12 HOTEL IS MADE BY OVER THE 55% OF RECYCLED PLASTIC

IPC supplies professional cleaning products with a high percentage of recycled plastics, certifying the traceability of the plastic production from the first check of raw materials to the finished product.

LP 1/12 HOTEL is made by over the 55% of high-quality recycled plastic through the exclusive Black is Green™ technology.

The percentage of recycled plastic can vary from product to product according to the configuration too.
The recycled plastic content in Black is Green™ IPC Vacuums goes from a minimum of 15% to a maximum of 65%.
It's possible to require documentation on the recycled plastic content indicating the specific product of interest.

BENEFITS BLACK IS GREEN™

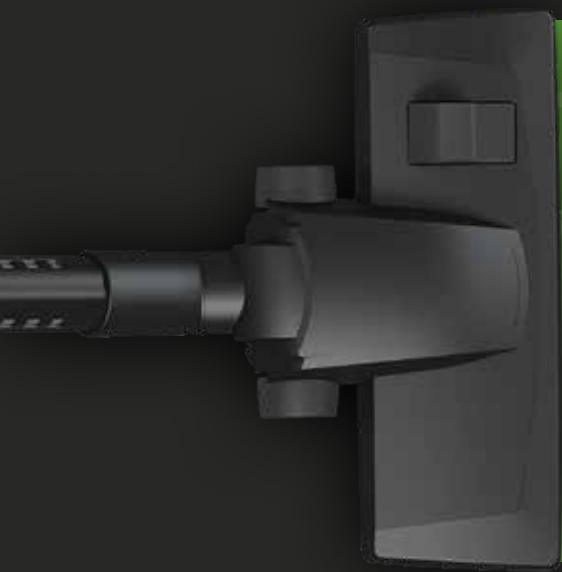

- 01 Black is Green™ recycled plastic is a material made of the best and strictly selected plastic waste.
- 02 It is produced through an innovative process to guarantee the same features of the virgin material and greater quality control.
- 03 The use of recycled plastic in cleaning products is recognized in public tenders as a rewarding green requirement.

ECODESIGN
FOR
PROFESSIONALS

BEST PERFORMANCE WITH LESS ENERGY CONSUMPTIONS

The new LP 1/12 HOTEL vacuum cleaner has been designed for cleaning specialists and intensive use, combining productivity, efficiency and energy savings.

+ EFFICIENCY
+ PERFORMANCE
+ FILTRATION
+ SILENT

BENEFITS

- 01 **High performances and energy saving.** New generation motor, high-performance, efficient and reliable.
- 02 **High cleaning efficiency.** High-smoothness combo brush with retractable bristles, suitable for both hard floors and carpets.
- 03 **Excellent filtration efficiency.** M-class certified microfiber bag resistant to tears and breaks.
- 04 **Low noise level.** Unique design to reduce noise to the minimum level.

Lightweight and compact, always with you.

CARATTERISTICHE

LP 1/12 HOTEL is the extremely noise-less and efficient vacuum cleaner.

Lightweight and handy, it's the ideal solution to satisfy all the daily cleaning requirements **in the shops, offices and hotel rooms.**

It's particularly suitable for the **HO.RE.CA.** sector and **Cleaning Companies** that need a powerful, light, compact and easy to use vacuum cleaner.

DIMENSIONS	mm	400x400x330

#01

EXTREMELY SILENT - WITH ECO MODE FUNCTION

The potentiometer not only reduces the energy consumptions according to the actual need. When set to the minimum level, it significantly reduces the noise, down to 53 decibels!

In addition, the no-marking rubber wheels allow to keep the quietness even on tiled floors and on uneven surfaces.

#02

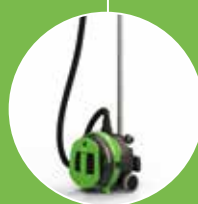

HIGH FILTRATION EFFICIENCY

LP 1/12 HOTEL has **three levels of filtration** with different characteristics and different materials:

- I. Microfibre collection bag made of M-class material
- II. Polyester filter with L-class material
- III. High-efficiency HEPA H13 cartridge

The polyester filter is also subjected to **antibacterial treatment AgTes with silver ions Ag+** to guarantee effective protection against the proliferation of microorganisms, reducing the risk of biological contamination.

#03

EASY TO TRANSPORT AND STORE

Lightweight and compact, it can be easily transported without any effort for the operator. The parking position allows it to be conveniently stored during breaks and at the end of work.
