DRIVING INNOVATION FORWARD

The extremely agile walk-forward
extractor and interim cleaner.

Walk forward extraction.

It has never been easier and more enjoyable to clean your carpets! Designed to be the ultimate in maneuverability and productivity, the Armada® BRC 40/22 is driving innovation forward. Enjoy the superior ergonomics of extracting while walking forward! The extractor deck rotates to allow cleaning in any direction. This new extractor provides anywhere from 30-60% productivity improvement in addition to reduced dry times. Our cleaning technology conveniently provides productive interim & deep extraction cleaning in one machine. Clean your carpets with the efficiency and speed never before seen.

1 Walk forward ergonomics

- The only self-contained walk behind extractor to allow for forward movement
- Steerable extractor head provides excellent maneuverability in any direction
- Adjust the steering wheel to any operator height for optimum ergonomics

2 Easy maintenance

- The brush and vacuum shoe require no tools to save time during daily cleaning and maintenance
- In line solution filter is easy to access and can be removed with solution in tank

3 Set it and go

- Single dial to select mode of operation is intuitive and makes for easy training

4 Real world practicality

- Ecoefficiency mode is quiet and perfect for daytime cleaning
- Our cleaning technology provides a 40% reduction in carpet dry times
- Cord management system keeps cord out of the way during operation

5 Productive interim mode

- Interim encapsulation cleaning technology provides a way to get your carpet cleaner faster with longer lasting results
- Carpets cleaned with interim encapsulating chemical are ready for traffic in approximately 20 minutes
- Interim cleaning process extends the time between scheduled deep extractions saving you time and money

Technical data and equipment.
