27-INCH RIDE-ON BATTERY BURNISHER

eForce™ Burnisher

The eForce Burnisher, with its innovative joystick control system, gives operators a new level of control and comfort when cleaning. Reach new levels of productivity with a burnisher that operators prefer to use.

- Easy to operate. NSS's patented joystick control allows operators to work in natural position. No steering wheel, no foot pedal, no standing.
- High performance. The eForce Burnisher uses an optimal combination of speed and pressure to quickly restore the luster of floor finish.
- Clean operation. The eForce Burnisher captures the floor finish powder created during polishing with the efficient Vac-Trac Dust Control System built into the pad motor shroud.
- The electric advantage, low cost of ownership. Unlike propane burnishers, the eForce Burnisher doesn't need frequent maintenance. Save thousands of dollars of operating costs by avoiding propane fuel costs, oil changes, and other costly repairs.

DO NO HARM™

Battery burnishers get the job done without the environmental downside of propane burnishers. Quiet operation, no exhaust fumes, excellent dust collection and lower energy costs.

Printed on Green Seal® certified paper that contains 30% recycled post-consumer fiber.

SPECIFICATIONS

eForce Burnisher

Pad Speed	3 speeds, 1500 - 1700 RPM	
Pad Size	27 in (69 cm)	
Motor	Permanent magnet	
Type	36 V	
Voltage	3.0 HP (2237W)	
Power		
Batteries	6 x 6V	
Batteries	390 AH AGM	
Type and Size	430 AH Wet	
Run Time	Up to 3.0 hours	
AGM Batteries	Up to 3.5 hours	
Wet Batteries		
Drive System	Joystick controlled dual-drive motor system (0.25 HP each)	
Safety Switch	Tilt switch prevents operation when head is up.	
Overload Protection	Machine controller protects the motor if current is too high.	
Construction	10-gauge steel	
Frame	Steel and Rotomolded Polyethylene	
Housing	ABS with steel liner	
Flexiwall Shield	Two 10-in wheels	
Wheels	Two 6-in casters	
Casters		
Sound Level	68 dBA	
Dimensions	62 x 30 x 49 in	
L x W x H	157 x 76 x 123 cm	
Weight (Lbs)	<u>Wet</u>	<u>AGM</u>
Machine	1,237 (561 kg)	1,267 (574 kg)
Shipping	1,320 (599 kg)	1,350 (612 kg)
Productivity (ft²/hr)	35,640 (3,311 m ² /hr)	
Warranty	3 year parts	

1. The touch screen control panel lets the operator work all the eForce controls from one screen.
2. The touch screen contains a complete operation manual, making training easy.
3. The flip up battery compartment cover allows easy access to the battery pack.
4. The durable powder-coated 12-gauge steel body is built for heavy-duty commercial use.
5. The battery tray and drain permit quick clean-up in the event that battery acid spills inside the machine.
6. The Flexiwall shield surrounds the pad, preventing debris from entering the pad area.
7. The front mounted burnishing head allows coverage into corners that center-mounted machines cannot.
8. The Vac-Trac Dust Control System collects 99.5% of dust to maintain indoor air quality.

OPTIONS AND ACCESSORIES

SENTRY

Monitor machine use through the internet. Sentry helps you manage your fleet by reporting machine usage, charge cycles and more.
